

Meeting Report – 05/01

Summary of the Meeting

The meeting focused on **stabilizing features across all areas**, expanding backend capabilities, and improving the **user experience on mobile**.

This sprint aimed to ensure consistency between **web**, **mobile**, and **backend** before moving forward.

Objectives for the Week

Mobile

- Verify frontend behavior across all **available areas**
- Implement **user-friendly animations** to improve the overall user experience

Backend

- Integrate **additional services** (remaining 1/2 services)
- Increase the **number of available areas** supported by the system

Web

- Verify frontend behavior across all **available areas**
- Ensure consistency in data display and interactions

Expected Deliverables by the End of the Week

- Stable and consistent **area handling** across web and mobile
- Expanded **backend services and areas** support
- Improved **mobile UX** with smooth, user-friendly animations
