

# Meeting Report – 22/12

## Summary of the Meeting

The meeting focused on **polishing the MVP** following previous feedback, improving **UI/UX**, continuing the **mobile catch-up**, and extending backend capabilities to support additional services and areas.

## Objectives for the Week

### Mobile

- Continue reducing the gap with the web application
- Implement **GitHub OAuth**
- Improve authentication consistency and overall stability

### Backend

- Integrate a **third service**
- Extend backend logic to better support multiple **areas and services**
- Ensure backend stability for MVP usage

### Web

- Implement a **Welcome page**
- Review and improve the **entire UI** to make it cleaner and more user-friendly
- Review all available **connections (konnects)**

## Expected Deliverables by the End of the Week

- A **mobile application closer to feature parity** with the web
- An **extended backend** supporting multiple services and areas
- A **cleaner and more polished web interface**
