

# Meeting Report–15/12

## Summary of the Meeting

The meeting focused on aligning all platforms and preparing a clean, consistent version of the application across **mobile**, **web**, and **backend**.

## Objectives for the Week

### Mobile

- **Full focus on mobile development**
- Achieve the **same level of features and rendering as the web version**, including:
  - OAuth authentication
  - Areas management and display

### Backend

- Add a **new endpoint** capable of listing:
  - All available **areas**
  - Associated **services**
- This endpoint must be consumable by both **mobile and web**, allowing them to parse the data and behave accordingly.

### Web

- Improve the **UI/UX**
- Consider creating a **new presentation / landing page** for the application.

## Expected Deliverables by the End of the Week

- A **clean and functional mobile application**
- A **backend endpoint** listing areas and services
- A **more polished and user-friendly web interface**
