Meeting Report – 29/12

Summary of the Meeting

The meeting focused on **improving user experience**, enhancing **accessibility**, and continuing feature integration across **backend**, **web**, and **mobile**.
 This sprint aimed to polish the application and make it more user-friendly and visually consistent.

Objectives for the Week

Mobile

- Review all available **connections (konnects)**
- Integrate **dark mode** to improve user comfort and visual consistency

Backend

- Integrate **part of a new service** (1/2 service)
- Review and clarify the list of **available areas**
- Ensure backend data consistency for frontend and mobile usage

Web

- Improve overall **user-friendly experience**
- Integrate **dark mode**
- Verify and improve **accessibility score** using **Lighthouse**

Expected Deliverables by the End of the Week

- A more **user-friendly and accessible application**
- **Dark mode** available on both web and mobile
- An improved and clearer **list of available areas and services**
- Better overall **UI/UX consistency** across platforms
